Priority area 1b: To improve mobility and multimodality - rail, road and air links

The First Scientific and Expert Conference on
ROAD SAFETY IN THE DANUBE REGION
Towards "Vision Zero" in the Danube Region

20th and 21st May 2015
Ljubljana /Slovenia
Cankarjev dom kulturni in kongresni center, Prešernova cesta 10, Ljubljana

DRAFT AGENDA

Wednesday, 20 May 2015

08.30 – 09.00 *Registration*

09.00 – 10.00 **Welcome address and keynote speeches**

Welcome by PA1b Priority area coordinators (PACs)

Keynote speeches

10.00 – 11.15 **SESSION I: Human behaviour (Driver)**

The purpose of the section is to present and debate about the behaviour of road users, especially in terms of risk factors and groups of vulnerable road users as well as raising awareness. Key risk factors and the most common risk factors are mainly speed, alcohol, drugs and not wearing a seat belt. The vulnerable road users are cyclists, motorcyclists, pedestrians, young and older drivers. At this session the examples of good practices will be shown and various solutions of the safest countries as well as solutions from countries which made a special progress in recent years will be presented.

11.15 – 11.45 *Coffee break*

11.45 – 13.15 **SESSION II: Road Infrastructure**

Road infrastructure is an important element in road safety. In order to achieve the objectives is necessary to ensure predictable road environment and roads, dismissing the drivers' mistakes and clear and safe traffic-technical solutions in the future.

13.15 – 15.00 *Buffet Lunch*

15.00 – 16.30 **SESSION III: Road Safety Management**

Speakers and round table participants will present the objectives of a safe approach to ensuring road safety and the pyramid levels of management of the transport system. Acting is oriented towards measurable objectives and approaches of governance and management of road traffic safety. A higher level of road safety (fewer accidents and fewer fatalities and injured) is now possible
